PROFESSIONAL SUMMARY

AI Automation Engineer and GoHighLevel (GHL) specialist with a strong foundation in full-stack development. I design and build complete GHL systems — funnels, CRM pipelines, appointment calendars, multi-step workflows, snapshots and AI Employee — that turn traffic into booked appointments and recurring revenue. I also build AI Agents and n8n automations, and ship scalable applications on the MERN stack. Certified JavaScript Full-Stack Developer (Grade: A+) with a passion for solving data-driven problems using Python.

TECHNICAL SKILLS

GoHighLevel (GHL): Funnel & website builder, Workflow automation, Pipelines & CRM, Calendars & booking, Snapshots & subaccount setup, Forms & surveys, Email/SMS marketing, Reputation management, Conversation AI / AI Employee, Voice AI, missed-call text back, GHL API v2.

Automation & AI: n8n workflow automation, AI Agents, LLM integration (Anthropic SDK, OpenAI, Groq), prompt engineering, API integration, webhooks, Python (NumPy, Pandas, Matplotlib), Scikit-learn.

Web Development: MERN stack (MongoDB, Express, React, Node.js), JavaScript (ES6+), HTML/CSS, Tailwind CSS, REST APIs, Vite.

Integrations & Tools: Twilio, Mailgun, Stripe, Zapier, Google Calendar, Google Sheets, WhatsApp, Telegram, Slack, Notion, Supabase, PostgreSQL, Prisma, Git, GitHub, Vercel, Postman.

Core Engineering: Data Structures & Algorithms, C++, OOP, Database Management (DBMS).

GOHIGHLEVEL (GHL) SERVICES DELIVERED

- **Funnels & websites** — lead-capture funnels, opt-in and sales pages, order bumps, upsells and full websites built natively in GHL.
- **Workflow automation** — multi-step email/SMS/voice follow-up sequences with triggers, conditional logic, A/B splits, delays and pipeline actions.
- **CRM & pipelines** — deal stages, opportunity tracking, lead scoring, smart lists, team routing and assignment.
- **Calendars & booking** — round-robin and team calendars, auto reminders, no-show reduction flows, Google/Outlook two-way sync.
- **Snapshots & subaccounts** — reusable snapshots and bulk subaccount provisioning packaged for repeat client delivery.
- **AI Employee & Voice AI** — trained Conversation AI that qualifies leads and books appointments 24/7, Voice AI agents and missed-call text back.
- **Revenue plays** — database reactivation, speed-to-lead, ad lead capture (Meta/Google), reputation and Google review automation, reporting dashboards.

KEY PROJECTS

GoHighLevel Funnel & Automation System | GoHighLevel, Twilio, Mailgun, Stripe

Built a complete GHL funnel-to-booking system: lead-capture funnel, CRM pipeline, appointment calendars and multi-step email/SMS follow-up workflows that move a lead from ad click to booked appointment on autopilot.

GHL AI Employee & Speed-to-Lead | GoHighLevel, Conversation AI, Voice AI

Trained a Conversation AI / AI Employee to answer FAQs, qualify leads and book appointments 24/7, paired with missed-call text back and instant speed-to-lead follow-up.

AI-Integrated Task Management System | Python, React, MERN

Developed an intelligent task management platform that uses Python-based AI logic to assist with task prioritization and smart scheduling.

n8n Workflow Automation | n8n, API Integration

Created automated workflows connecting WhatsApp, Gmail, Google Calendar and Google Sheets for real-time data management and personal brand automation.

Online Maze Game for Learning (OMGL) | C++, Algorithms

Engineered an educational tool using random maze generation algorithms to strengthen logical thinking and programming fundamentals.

EDUCATION & CERTIFICATIONS

BS in Software Engineering

Virtual University | Graduated: March 2026

JavaScript Full Stack Development Certification (Grade: A+) — 3-Month Intensive Industry Training, completed 2026.
