PROFESSIONAL SUMMARY

Software Engineering graduate with a strong foundation in Full-Stack development and a specialized focus on Artificial Intelligence and Machine Learning. Experienced in building scalable applications using the MERN stack and automating complex workflows with n8n. Certified JavaScript Full-Stack Developer (Grade: A+) with a passion for solving data-driven problems using Python.

TECHNICAL SKILLS

AI & Machine Learning:	Python (NumPy, Pandas, Matplotlib), Scikit-learn, Data Preprocessing.
Web Development:	MERN Stack (MongoDB, Express, React, Node.js), JavaScript (ES6+), HTML/CSS.
Automation & Tools:	n8n Workflow Automation, API Integration, Git, GitHub, Vercel, Postman.
Core Engineering:	Data Structures & Algorithms, C++, OOP, Database Management (DBMS).

KEY PROJECTS

AI-Integrated Task Management System | *Python, React, MERN*

- Developed an intelligent task management platform that utilizes Python-based AI logic to assist in task prioritization and smart scheduling.

Online Maze Game for Learning (OMGL) | *C++, Algorithms*

- Engineered an educational tool using random maze generation algorithms to enhance logical thinking and programming fundamentals.

n8n Workflow Automation | *Automation, API Integration*

- Created automated workflows connecting WhatsApp and Google Sheets for real-time data management and personal brand automation.

EDUCATION & CERTIFICATIONS

BS in Software Engineering

Virtual University | Graduated: March 2026

JavaScript Full Stack Development Certification (Grade: A+)

3-Month Intensive Industry Training | Completed 2026.
